WORK EXPERIENCE

Paratus Telecommunication

January-March 2024

Network Operation Center Technician
(Intern)

- monitor network infrastructure, including routers, switches, servers, and other network devices, to identify and address any performance issues or outages promptly.
- Analyze network traffic patterns, bandwidth utilization, and other performance metrics to identify trends, optimize network performance, and plan for future capacity upgrades or enhancements.
- Coordinate with other technical teams, vendors, and service people providers to escalate and resolve complex network issues, as well as provide status updates and incident reports to stakeholders.

TESTIMONIAL

To whom it may concern

Re: Testimonial of Employment

This is to certify that Mr. Petrus Festus ID 01022600613, has been in the employ of Paratus Telecommunications (PTY) Ltd as an Intern in our NOC department for a period of three months, January 2024 – 31 March 2024.

Petrus showed willingness and was eager to learn. His main responsibilities during his internship period were shadowing the current permanent employees with over the shoulder training in the first two weeks. Then receive credentials and can answer basic customer queries and assist on level 0 support as well as answering phones and emails and customer queries. In his final month he got router credentials and was able to assist with monitoring and customer support and troubleshooting.

We wish Petrus all the best for his future endeavors and believe he will make a success of it.

Please do not hesitate to contact us for any further information.

Kind regards,

Janine Kotze
